

## National Digital Skills Centre **Broadcast / TV Production Skills** Course

This course has been designed to provide the audio visual industries with personnel who are skilled in Television, Digital Cinema & new generation platform production techniques.

The aim of the course is to provide learners with real life projects in which they can hone their practical skills and enhance their related knowledge in research, client negotiations, script writing, location and studio work, editing and media distribution while developing their attitudes with a view to obtaining permanent employment in the Television & Digital Cinema industries.

The course is 52 weeks (full time) including 10 weeks in-company training.

The course is structured into the three phases of production:

- Pre-Production – Budgeting, Planning logistics, Script writing etc
- Production – Single/Multi Location/Studio Camera operations, Audio, Grip etc
- Post-Production – Editing, Grading, Motion Graphics, Visual FX, Distribution etc

**Recruitment:** The Recruitment Process for this course is by interview.

#### Entry Requirements:

- Educational: Junior cert standard of education or equivalent
- Aptitude: Good learning ability, with good spatial aptitude and form perception
- Personal Skills: A reliable, self motivated individual with teamwork abilities and verbal and written skills
- Previous Experience: Must have shown an interest in media through hobby, previous course or work experience.
- Special Requirements: Good colour vision and hearing is desirable but not essential. Lacking in either could make it difficult to obtain employment. A full driving license and an ability to work in adverse conditions is also desirable.
